github.com/Mayank-Shrivastava-2004

OBJECTIVE

Highly motivated Computer Science student proficient in Java, DSA, and OOP. Looking for a role where I can apply practical experience in developing applications using React, MySQL to build efficient, scalable solutions and achieve key organizational milestones

SKILLS AND ABILITIES

Certifications :- Java Foundation Certification by Infosys , Oracle Cloud Infrastructure 2025 Certified DevOps Professional by Oracle ,Oracle Cloud Infrastructure 2025 Certified Generative AI Professional by Oracle , Getting Started with Enterprise Data Science by IBM , Machine Learning for Data Science Projects by IBM, Networking Essentials by Cisco, IT Essentials by Cisco ,Programming Essentials in C by Cisco , Programming Using C++ by Cisco .

Programming Languages :Java Programming , JavaScript , Python .

Frontend Development : HTML/CSS , Tailwind CSS , SCSS.

Frameworks/Backend : Spring boot . Git , Node.js, Express.js, MongoDB.

Library : React , Redux Toolkit.

Databases: MySQL ,NoSQL .

Core Competencies: Data Structures and Algorithms (DSA) , Object-Oriented Programming (OOP) .

EXPERIENCE

Infosys Springboard Virtual Internship 6.0

Dec 2025 – Present

Completed self-paced Infosys Springboard 6.0 internship, building React Native mobile app with MERN stack and AIML integration to solve urban parking challenges via live business problems.

Engineered React Native UI (hooks/Context API, Leaflet maps—60% faster searches) and Express.js APIs (JWT auth, Socket.io, MongoDB geospatial queries for 500+ spots).

Maulana Azad National Institute of Technology , Bhopal

June – July 2025

Developed CNN model using FER-2013 Kaggle dataset to classify 7 facial emotions (Angry, Disgust, Fear, Happy, Sad, Surprise, Neutral).

Implemented data preprocessing, augmentation, and custom CNN architecture for enhanced robustness.

Evaluated performance with accuracy metrics and confusion matrix, surpassing baseline results significantly.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering

2023-Present

Samrat Ashok Technological Institute, Vidisha .

CGPA: 7.99 | Expected Graduation: 2026

Diploma, Computer Science and Engineering

2020-2023

Indira Gandhi Government Polytechnic College, Chhindwara . CGPA: 8.38

PROJECT

• Park Ease Smart Parking Spot Finder

Dec 2025- Present

Engineered responsive UI with React hooks and state management to display live parking availability, reducing user search time by 60% via interactive maps.Built secure RESTful APIs with Express.js handling user authentication (JWT), real-time spot updates via Socket.io, and geolocation queries for 500+ simulated spots.

• Automated Facial Emotion Recognition Using Deep Learning

June-July 2025

Developed a deep learning model using TensorFlow and Kaggle's dataset to classify facial emotions with a focus on accuracy and performance. Implemented Convolutional Neural Network (CNN) for feature extraction and emotion classification.
